

Should K-Love FM be replaced by LPFM: a disservice to our community and country would occur by removing a wholesome christian radio format. We listeners contribute to keep our radio station on the air. To have it removed would be a perfect example of the direction of a select few that would like to remove God from every aspect of our public lives. Please FCC, heed our requests to take a look at this radio station and what it means to the listeners and do not take any action that would prohibit its continuation. Your country, your children, deserve the chance to listen to what they choose. We choose Klove and it is proven through the number of listeners throughout the country and world.
